

Dear Barry,

You can not imagine the joy I experience having this pool. You have been so very thoughtful and kind making sure it was in perfect condition ready to go. And so yesterday when the sun came out, I jumped in!

Thank you for your care and for always being available to help. Please thank those great guys who came to put the lining in. And thank you for getting the chemicals just right this last Monday.

You are a blessing and for me; a gift from God. Thank you.

Love,
Margaret
